

New

VISIA[®]

Now in 3D

for **masterful** communication
and **effortless** conversions

VISIA^{3D}

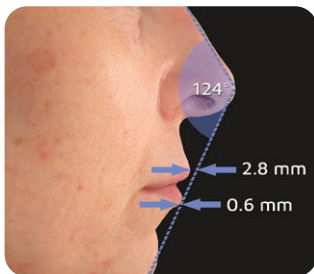

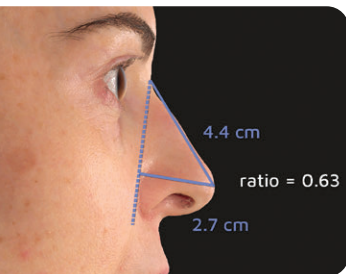

More injectables, more energy-based treatments, and, of course,
VISIA Skin Analysis

VISIA's patented **Comparison To Norms** analysis uses the world's largest skin feature database to grade your client's skin relative to others of the same age and skin type.

TruSkin Age® uses VISIA's analysis to assess your client's overall skin condition and age, providing a revolutionary new metric to guide the selection of skin care products and treatment options.

VISIA 3D is the **only** system with **instant capture** delivering **3D** with standard, cross-polarized, and UV lighting modes.

Includes video capture

Fully automated **calibrated 3D measurements** for assessment and simulation.

Show **results** of injectables, fillers, energy-based treatments and surgical improvements **in 3D** with measurable volume changes.

VISIA and TruSkin Age are registered trademarks of Canfield Scientific, Inc.
